So you may ask yourself, is making money online something that can be achieved or is it simply a myth. The line that separates the two is very blurry as there are SO MANY places online that are scams or have promises of getting rich in a couple of weeks! I have personally tried and failed miserably. However trial and error is one of the best ways to find out what REALLY WORKS!

Now before I get into how much money I make, what has to be done to make it, and how you can start making the kind of money that I do online, I'd like to share with you a little bit of info about me. I am 24 years old, I have two young kids, my own house, and a ton of bill's just like you! It started back in September of 2006. I had a 9-5, and everyday my routine was the same. I'd wake up early, deprived of sleep struggling to find the energy to make it through the day! I'd get to work my boss was a real asshole and it seemed as if the work day lasted FOREVER! When I was finally released at 5, I'd be so drained that when I got home all I wanted to do was sleep until the next day, just to do it again! As the holidays grew closer the company I was with grew closer and closer to economic disaster. Within a week I, along with several of my colleagues had been laid off! In desperate attempts for money to give my kids a great Christmas I started trying everything with no luck. I eventually came across a survey site online that "claimed" to actually pay you to do offers that were 100% free. Well at this point I had tried everything or so I thought and was very skeptical! I reluctantly signed up to a site called [Cashcrate](#), which will be discussed later on! I reluctantly signed up and began completing offers! They had a \$10 minimum payout which I assumed they probably wouldn't let me get to! After about a half an hour I had completed about \$13 dollars worth of surveys. I continued this pattern for about 4 more days making a total of \$52, however my skepticism, prevented me from continuing any farther! About a month later I was checking the mail and had forgotten all about it and I was cycling through bills and there it was my 1st check just as promised in the amount of \$52. At this point I was feeling kind of foolish for not completing as many offers as possible, but I went back to the site and the next check I got was for \$150. After more research, trial, and error I found out that there were more sites like this that ACTUALLY PAY!!!! I am now a member of several of these sites and I have turned sitting on the internet into FULL TIME EMPLOYMENT.

Below I will be listing several of the sites that I belong to as well as a detailed description of how they pay.

[Cashcrate](#) - Ok this has got to be one of my favorites. It has a neat workable interface, there is a \$10 payout limit, verification of offers is normally quick. They will send you a check in the mail on the 15th of each month! They also pay for referrals. Meaning if you sign someone else up under your designated referral link you will earn a percentage of what they make. This works for 2 levels so when your referral recruits someone under there link you also earn a smaller percentage! Also you receive 2 \$3 bonus every time one of your referrals reaches there minimum payout! You earn 20% of your referrals and 10% of there's!

[DealBarbiePays](#) – This is great site that is very easy to make money especially with referrals. However the minimum payout is \$20 which is not hard to achieve. This site offers a variety of pay methods which are: check, paypal, or gift card of your choice. This site is a winner because you are able to use the money that you earn within the site to buy advertising for other sites which is important! On top of a 3 level referral program.

[GetPaidto](#) – Need money quick? This site is definitely the way to go. They have a .50 minimum payout and they deposit the money to your paypal account! The only form of payment they provide is to paypal, but the offers verify quick and they have lots of offers every month!

[Craving Cash](#) - 1st of all you are given a \$3 bonus just for signing up with this site! This site however does have a \$15 limit but that won't discourage real money makers. This site give you a bonus for just about everything you do. They have daily contest such as earn \$1 for every \$2 dollars you earn and you get \$1 every time you post proof of payment (scanned check or Paypal screenshot). Checks are processed on the 20th of each month or you can choose paypal. 3 Levels of referrals.

Now at this point you have a list of sites that have all been proven to be 100% Legit and will pay you! Now I'm going to discuss the two MOST important things you need to know to maximize your money making potential.

1. Completing offers – Completing offers will be an essential part of making money with this system. Although the process can be tedious you can generate some decent money with a little amount of time. Most of these offers are requesting the same information (Name, address, phone #, e-mail). I have found a program called Roboform(see links section) that works well and allows you to fill out these fields with the click of one button. Now its time to start completing offers. With roboform it's easy to complete \$10 worth of surveys in 15 minutes. Don't be discouraged if it doesn't verify immediately it may take a couple of hours. Set aside some time in the day to do this on each of the four sites listed above. At this rate 7 days a week 4 times a month you will be averaging an EASY \$1020, that you can earn every month as long as you remain active and will provide a decent income from just 1 hour of your time a day.
2. Referrals – Yes there is another way to make ADDITIONAL money on all of these sites and that is through the site's referral plan. How it works is once you are signed up with the site they will all have a referral section where you will be given the following a referral link, which is personalized to your account, and a banner URL which you can insert wherever you want! So what's the best way to get referrals? I think the most important thing to remember is to be creative. The web is the biggest form of communication and advertising today. Get on [Youtube](#) make some video's share the tips that you have learned in this ebook with people and in return share your referral link. There are forums which can be found that specifically pertain to making cash online put your banners up! Yahoo Answers is also a great site to get your referral link out. Answer questions people ask about how they can make money online with your referral link! And don't forget about Myspace! Referrals will be able to make you A LOT more money then completing offers because the amount you make is literally unlimited. You can have as many referrals as you can get, and everytime one of them completes an offer you get a percentage. So for example, you refer 20 people that all make at least \$50 in one month you would receive \$10 from all 20 referrals which is an extra \$200 a month, plus any money from the referrals they get! **BOTTOM LINE REFERRALS AND COMPLETING OFFERS ARE EQUALLY IMPORTANT!**

Things to know to make money with the system a breeze:

1. While completing offers if you don't want to give too much important info out here are some things you can do. Create a new e-mail address specifically for completing offers, Get a free phone # and voicemail from [K7](#) , use [Roboform](#) to fill out information fields fast, on surveys with a lot of yes/no bubbles holding the ctrl button and pressing the + key will make them automatically go to no!
2. Loose the ugly referral link! When you get your referral links they WILL be a sight for sore eyes. Something along the lines of <http://www.cashcrate.com/example324> will make people skeptical to click on it! Try masking your referral link using the website [Dot.Tk](#) which will allow you to change your link from the above example to something like <http://Whatever.tk>.
3. Stay focused! YOU WILL NOT GET RICH OVER NIGHT! Set a goal amount that you will set aside to make each day and stick with it, you will be rewarded when payday comes. Also make attempts to get referrals where ever possible. [Youtube](#) has been a major help for me!

This is the links section where I will list all the programs that I have discussed with brief descriptions

1. K7.net – <http://www.k7.net> Provides a phone # and voicemail for free all you have to do is sign up!
2. Dot.Tk – <http://www.Dot.tk> Free redirecting/masking webpage which allows you to insert any long link(ie referral link) and personalize it to something nicer
3. Roboform – <http://www.roboform.com> Go to the download section and download the FREE demo, it works just as well as the full version. This program allows you to complete information fields with the click of a button which is installed in you browser tool bar.
